I understand that I am directly and fully responsible to Life is Good Chiropractic for all fees associated with chiropractic care my child receives.

The risks associated with exposure to ionization and spinal adjustments have been explained to me to my complete satisfaction, and I have conveyed my understanding of these risks to the doctor. After careful consideration I do hereby request and authorize imaging studies and chiropractic adjustments for the benefit of my minor child for whom I have the legal right to select and authorize health care services on behalf of.

Under the terms and conditions of my divorce, separation or other legal authorization, the consent of a spouse/former spouse or other guardian is not required. If my authority to so select and authorize this care should change in any way, I will immediately notify this office.

Informed Consent

We encourage and support a **shared decision-making process** between us regarding your health needs. As a part of that process, you have a right to be informed about the condition of your health and the recommended care and treatment to be provided to you so that you can make the decision whether or not to undergo such care with full knowledge of the known risks. This information is intended to make you better informed in order that you can knowledgeably give or withhold your consent.

Chiropractic is based on the science which concerns itself with the relationship between structures (primarily the spine) and function (primarily of the nervous system) and how this relationship can affect the restoration and preservation of health.

Adjustments are made by chiropractors in order to correct or reduce spinal subluxations. **Vertebral subluxation** is a disturbance to the nervous system and is a condition where one or more vertebra in the spine is misaligned and/or does not move properly causing interference and/or irritation to the nervous system. The primary goal in chiropractic care is the removal and/or reduction of nerve interference caused by vertebral subluxation.

A chiropractic examination will be performed which may include spinal and physical examination, palpation, and radiological examination (x-rays).

The chiropractic adjustment is the application of a precise movement and/or force into the spine in order to reduce or correct vertebral subluxation(s). There are a number of different methods or techniques by which the chiropractic adjustment is delivered but are typically delivered by hand. Some may require the use of an instrument or other specialized equipment. Among other things, chiropractic care may reduce pain, increase mobility, and improve quality of life.

In addition to the benefits of chiropractic care, one should also be aware of the existence of some risks and limitations of this care. The risks are seldom high enough to contraindicate care and all health care procedures have some risk associated with them.

Risks associated with some chiropractic treatment may include soreness, musculoskeletal sprain/strain, and fracture. In addition there are reported cases of stroke associated with visits to medical doctors and chiropractors. Research and scientific evidence does not establish a cause and effect relationship between chiropractic treatment and the occurrence of stroke; rather, recent studies indicate that patients may be consulting medical doctors and chiropractors when they are in the early stages of a stroke. In essence, there is a stroke already in process. However, you are being informed of this reported association because a stroke may cause serious neurological impairment.

I have been informed of the nature and purpose of chiropractic care, the possible consequences of care, and the risks of care, including the risk that the care may not accomplish the desired objective. Reasonable alternative treatments have been explained, including the risks, consequences and probable effectiveness of each. I have been advised of the possible consequences if no care is received. I acknowledge that no guarantees have been made to me concerning the results of the care and treatment.

I HAVE READ THE ABOVE PARAGRAPH. I UNDERSTAND THE INFORMATION PROVIDED. ALL QUESTIONS I HAVE ABOUT THIS INFORMATION HAVE BEEN ANSWERED TO MY SATISFACTION. HAVING THIS KNOWLEDGE, I KNOWINGLY AUTHORIZE LIFE IS GOOD CHIROPRACTIC TO PROCEED WITH CHIROPRACTIC CARE AND TREATMENT.

LIFE IS GOOD CHIROPRACTIC NOTICE OF PRIVACY PRACTICE

This office is required to notify you in writing, that by law, we must maintain the privacy and confidentiality of your Personal Health Information. In addition we must provide you with written notice concerning your rights to gain access to your health information, and the potential circumstances under which, by law, or as dictated by our office policy, we are permitted to disclose information about you to a third party without your authorization. Below is a brief summary of these circumstances. If you would like a more detailed explanation, one will be provided to you. In addition, you will find we have placed several copies in report folders labeled 'HIPAA' on tables in the reception. Once you have read this notice, please sign the last page, and return only the signature page (page 2) to our front desk receptionist. Keep this page for your records.

PERMITTED DISCLOSURES:

1. Treatment purposes - discussion with other health care providers involved in your care.
2. Inadvertent disclosures - open treating area means open discussion. If you need to speak privately to the doctor, please let our staff know so we can place you in a private consultation room.
3. For payment purposes - to obtain payment from your insurance company or any other collateral source.
4. For workers compensation purposes - to process a claim or aid in investigation.
5. Emergency - in the event of a medical emergency we may notify a family member.
6. For Public health and safety - in order to prevent or lessen a serious or eminent threat to the health or safety of a person or general public.
7. To Government agencies or Law enforcement - to identify or locate a suspect, fugitive, material witness or missing person.
8. For military, national security, prisoner and government benefits purposes.
9. Deceased persons - discussion with coroners and medical examiners in the event of a patient's death.
10. Telephone calls or emails and appointment reminders - we may call your home and leave messages regarding a missed appointment or apprise you of changes in practice hours or upcoming events.
11. Change of ownership- in the event this practice is sold, the new owners would have access to your PHI.

YOUR RIGHTS:

1. To receive an accounting of disclosures.
2. To receive a paper copy of the comprehensive "Detail" Privacy Notice.
3. To request mailings to an address different than residence.
4. To request Restrictions on certain uses and disclosures and with whom we release information to, although we are not required to comply. If, however, we agree, the restriction will be in place until written notice of your intent to remove the restriction.
5. To inspect your records and receive one copy of your records at no charge, with notice in advance.
6. To request amendments to information. However, like restrictions, we are not required to agree to them.
7. To obtain one copy of your records at no charge, when timely notice is provided (72 hours). X-rays are original records and you are therefore not entitled to them. If you would like us to outsource them to an imaging center, to have copies made, we will be happy to accommodate you. However, you will be responsible for this cost.

COMPLAINTS:

If you wish to make a formal complaint about how we handle your health information, please call Dr Bryn Gillow at (570) 992-2929. If she is unavailable, you may make an appointment with our receptionist to see her within 72 hours or 3 working days. If you are still not satisfied with the manner in which this office handles your complaint, you can submit a formal complaint to:
